

1. TITLE OF THE CERTIFICATE (CZ)⁽¹⁾

Vysvědčení o maturitní zkoušce z oboru vzdělání: 23-45-L/01 Mechanik seřizovač (denní studium)

⁽¹⁾ In the original language

2. TRANSLATED TITLE OF THE CERTIFICATE⁽²⁾

Maturita Certificate in: 23-45-L/01 Mechanic Machine Setter (full-time study)

(2) This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES

General competences:

- be familiar with various methods of learning, use sources of information well, show functional literacy;
- understand assignments or identify the cores of problems, exert variable solutions, work both independently and within a team;
- communicate in one foreign language at the level of at least B1 of the Common European Framework of Reference for Languages;
- cope with changing socio-economic conditions, be financially literate;
- be aware of the labour market mechanisms, and of the employee-employer relationships, act on career decisions responsibly, understand the significance of lifelong learning;
- use basic mathematics and the basic principles of physics and chemistry when needed in daily situations;
- work with the means of information and communication technologies, exploit adequate sources of information, handle
 information effectively;
- act in an environmentally-conscious manner and in compliance with strategies for sustainability;
- support values of local, national, European and world cultures, recognize the value of life;
- exert fundamentals of health protection, occupational safety, and fire prevention and safety;
- · exert norms and prescriptions in the field.

Vocational competences:

- operate conventional and numerically controlled machine tools for machining of workpieces;
- adjust manufacturing machinery, equipment and lines (e.g. machining, forming) and technology-related handling equipment using the industrial and technological documentation;
- clamp tools and manufacturing equipment and adjust their position;
- create the CNC machine production programs;
- implement the modification, correction and testing of programs for CNC machines;
- introduce operators onto the service of the reconditioned production machinery, equipment and lines when performing the technological operations and instruct them in the necessary extent;
- check the size, shape and relative position of surfaces and surface quality of workpieces;
- set up working procedures, define working conditions, select instruments, tools, gauges and other work equipment for performing technological operations (including the use of appropriate software on the PC);
- distinguish machined materials according to their standardized designation, know their properties and take it into account in their treatment;
- search for information in the standards, catalogues and other information sources;
- work with a personal computer and other means of information and communication technologies.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

The graduate is employed in the field of middle management positions in engineering, in work activities related to the adjustment, operation and maintenance of a wide range of machinery, equipment and lines. Examples of possible jobs: metal lathe hand, miller, metal grinder, driller, NC machine operator.
